

# THE MENTOR TRAINING COMMUNITY WELCOME PACK

# **Welcome to TMT Community!**

This program will teach you how to hold space for and deeply connect to, yourself and other human beings as an act of service.

More than that, this program is about truth and love because truth and love are always invitations to deeper experiences with yourself and others. Remember that. Remember that when you use your mind, heart and intuition, in equal measures, you can't do this work wrong.

As a TMT Community participant, you will receive a certification in The Mentor Training method and approach.

The Mentor Training Community programme also offers the support of an ongoing community in Telegram, over 20 hours of video content, 2 live calls with TMT teachers, and free mentoring from peers.

We're so honoured to be on this journey with you.

# Showing Up With Integrity

## Personal Responsibility

We fully commit to you. We ask that you bring that same level of commitment to us.

We ask that you create space in your life by carving out time and limiting distractions as much as possible to ensure you receive the full benefits of the training.

The more you involve yourself in The Mentor Training, the more you will get out of it. We ask that you show up with integrity & take full responsibility during this course. This starts by agreeing that everything shared as part of the program - with us, between participants and within your listening partnerships - stays fully confidential.

We also ask you to show up on time to your live teaching calls on time (there are only two!)

*To accommodate as many time zones as possible we will host two calls on the live training days - please choose one and try to attend the same session (AM or PM) every time.*

## **Ethics**

A big part of this program is based on participation - in the Telegram community and in listening partnerships.

Mentoring happens as part of a relationship between you and your mentee, participating in the group is a great way to practise showing up for yourself and others

We ask that you show up with the same level of integrity and consideration as you will as a mentor. Please always be respectful to others.

The community and peer mentoring relationships are safe spaces, please do not mentor or coach each other outside of your practice sessions.

Remember that all information shared is confidential, if you need space to process something that was shared, reach out to us.

Please read and sign [The Mentor Training Standards of Ethical Conduct, here](#). This is due before you begin your practice sessions.

## Meet the team

We believe that everyone has the ability to teach, care for and help others.

Traditional counselling, coaching and the business models that fuel them are built on standards that lack integrity.

The Mentor Training is built on equality, inclusivity and a flexible human-centred approach to how we teach and run our organisation.

Our team of four have come together as a cooperative where all four of us equally own and govern every aspect of the organisation.

We decide together as a team what we produce and offer, how we do it and what we do with the profits to ensure the organisation is truly accountable to those that we serve. No one is on top, but instead, we are all equal members who have chosen to take on certain responsibilities that draw on our natural abilities, strengths and experience.
